TEACHING AIDS For The Director:

Make sure to play all notes full value unless otherwise marked, this will help your students to perform authentically and your audience to instantly recognize this infectious tune.

Don't be afraid of the dissonance in mm. 49-50, follow the crescendo into m. 51 for the release of harmonic tension on your way to the downbeat of m. 52.

Careful observance of dynamics and rhythmic accuracy will add musical interest to your performance. Finally and most importantly.... have fun with it!
