The Last Line of Defense Concert March Ryan Meeboer

The *last line of defense* is a term that refers to the final means of defense before the opponent reaches its goal, particularly in a war situation. This piece reflects that definition, as it has the fierce, excitement of a war and represents to bravery of the men and women that risk their lives to defend what is important to them.

The piece opens with strong chords played by all. Although this can be very exciting for young performers, they should not over blow too much, risking the chance of losing good tone.

As the main body of the piece enters at measure 17, with the trumpets play the melody and the remaining parts striking chords together. Extra rehearsal time may need to be spent focusing of playing the ‘shot’ chords tightly and cleanly. This feeling continues at measure 33, and gives the tenor saxophone, trombone, and bassoon players an opportunity to shine as they perform a counter melody.

The Trio section was composed to reflect the style of a traditional march, with a standard bass line and smooth melody. This section is to be played with a light bounce, in order to affectively contrast the rest of the piece. As the flute, oboe, and alto saxophone bring in a counter melody, be sure it does not dominate the main melody, even though it is new material and should normally be meant to shine.
