To The Horizon

David Marlatt

This work tells the story of the famous sailor and explorer - Christopher Columbus. His voyage to discover a trade route with China while traveling West led to the discovering of The New World - the Americas.

Getting ready to leave Spain, there was much ceremony at the dock as the ships were loaded and the crew prepared to depart.

Setting Sail depicts the happy energetic actual start of the journey - with the wind in their faces, Columbus and his men headed west to the horizon. Since many people of the time thought the world was flat, it was feared that they would sail off the end of world.

While being at sea for over two months and not knowing what they would find, there was a lot of time for reflection by Columbus. Wanting desperately to discover a trade route to the Orient, he waiting patiently day after day.

On October 12 1492, land was spotted and the crew celebrated. *To New Discoveries* celebrates a man who crossed the ocean in search of something... but found something else. The European presence was first felt that day and has never left since.

Many other people followed Columbus' route, braving the ocean, wind and hardships. *To the Horizon*
